Bachelor in Business Administration

The BBA (Management) final year of the Preston University is a 9-month distance learning program offering specialized coursework and academic guidance in a variety of disciplines incorporating traditional as well as innovative instructional techniques.

Eminently suited for diploma holders and executives with vast experience this program may be pursued part-time. Kolej Unistate's very conducive learning environment and very experienced course facilitators will help participants adapt well to the action learning process and receive an excellent learning experience.

The final year of the BBA (Management) comprises the following modules:

- Principles of Management
- International Management
- Organizational Behavior
- Business Policy and Strategy
- International Marketing
- Principles of Marketing
- Entrepreneurship
- Financial Management
- Leadership
- Business Law
- Capstone Project

The Modules are presented over weekend workshop sessions at Kolej Unistate. Free books and course materials are provided to participants.

The workshops are organized one-module-a-month. Workshops will be conducted on Saturdays and Sundays to cater for busy aspirants. Workshop facilitators for the different modules have established credentials and have been selected for their range of academic and practical experience.

Assessment is carried out at the end of each module where the student will submit a written assignment for that module for evaluation. On completion of the eight modules and the Capstone Project of 5000 words, the student will be awarded the Preston University BBA degree.

Graduates of the BBA qualify to read the Preston University 12-month MBA degree at Kolej Unistate.

Course Description

MG 3110 Business Law

This course covers important areas of business law, such as contracts, sales, commercial papers, agency and employment law, business organizations, and property.

MG 4410 Principles of Management

This course addresses the contemporary management. Emphasis is upon the practical considerations of planning, organizing, decision-making, leading and controlling in modern organizations. The course covers each managerial function in detail, while illustrating historic perspectives and today's approach to management.

MG 4040 International Management

This course introduces students to the challenges and opportunities facing managers in today's international work place. Emphasis is upon the practical considerations of successfully managing global operations. The course will cover the global management philosophy, highlight the functional tools of international managers and illustrate effective approaches to international management.

MG 4200 Organizational Behavior

The student will study the perspectives, historical background, methodology and theoretical framework for human behavior in organizations. Particular attention is placed upon organizational dynamics, environmental factors, management issues, technology, design, culture and organizational change.

FA 4160 Financial Management

This course covers the essential elements of modern financial management. It is especially designed for students in the Business Administration curriculum.

MK 5200 International Marketing

The purpose of this course is to enable the students to achieve an overview and understanding of international marketing as a managerial challenge. Emphasis is upon international environmental analysis, international marketing issues and their implications.

MK 4210 Principles of Marketing

This course provides insights into contemporary marketing applications. Exposure to marketing terms and concepts and integration of these terms into a marketing-focused thought process will enable the student to develop a practical marketing plan.

MG 4030 Leadership

This course helps students acquire a feel of how leadership is practiced, while gaining insight and information to enhance their own leadership skills, both personally and professionally.

MG 4420 Business Policy and Strategy

A series of business cases and materials are given that deal with a variety of problems confronting general management. These cases illustrate the major areas of managerial concern.

MK 4230 Entrepreneurship

This course provides the student with the insights and skills needed to gain an understanding of entrepreneurship.

MG 4980 BBA Capstone Project

A capstone experience requiring student to integrate all that has been learned into a major project of the student's choice.
